What is Ivy Tech?

Ivy Tech is a London-based company that, since 2018, has been bridging the gap between global clients from the US, Europe, UK and Australia and borderless tech talent. Our vibrant, remote talent community drives innovation and embraces diversity.

What we do:

- Provide dedicated full-time work in innovative tech companies for the long term, with Ivy in the middle as your support structure.
- Access to a global network
- Continuous career development and access to growth opportunities.

What we don't do:

- Blocking your career growth by constant project switching or sitting "on the bench".
- Unethical or unfair employment practices.

We curate borderless tech teams of all levels and tech stacks

We bridge the gap between an in-house and outsourced team. Access the best of both worlds.

What you get with us:

- Our developers are empowered to excel, tailoring their professional paths and influencing the evolving tech landscape.
- They get an opportunity to shape their careers and futures alongside industry leaders.

Who is our client whom you'd be working with?

Our client is the heart of imagination, serving a rapidly expanding beauty community across the UK & Ireland. Imagine signing up for an application where you take part in Market Research Surveys, create Video Reviews and earn bonus points; this is precisely what our client does. Honesty is at the core of what they do, and it has worked for them time and time again. You will be part of a team that is still developing, and the client is looking for someone committed to the long term.

Who is our client looking for?

Our client is looking for a talented mid/Senior Developer to join their growing team. The ideal candidate will have strong experience with AWS and Ionic, proficiency in JavaScript and MySQL, and a proven track record of working effectively in small teams.

This role will involve heading up feature development, roadmap planning, and execution.

Considering the size of the existing team, the right candidate will be responsible for their own QA, documentation and task management and needs to have strong communication skills.

Key Responsibilities:

- **Feature Development:** Lead the design, development, and deployment of new features.

We curate borderless tech teams of all levels and tech stacks

We bridge the gap between an in-house and outsourced team. Access the best of both worlds.

- **Roadmap Planning and Execution:** Collaborate with team members to plan and execute the product roadmap, ensuring timely delivery of high-quality features.
- **AWS Management:** Utilize Amazon Web Services (AWS) to architect, deploy, and maintain scalable and secure cloud-based applications.
- **Ionic Framework Development:** Develop and maintain mobile and web applications using the Ionic framework.
- **JavaScript Programming:** Write clean, efficient, and maintainable JavaScript code.
- **Database Management:** Design, manage, and optimise MySQL databases.

Experience and skill requirements:

- **AWS:** 3+ years Strong hands-on experience with Amazon Web Services, including but not limited to EC2, S3, Lambda, and RDS.
- **Ionic Framework:** 3+ years proven experience in developing applications using the Ionic framework.
- **JavaScript:** Proficient in JavaScript and familiar with modern JavaScript frameworks and libraries.
- **MySQL:** Solid experience with MySQL, including database design optimisation and management.
- **Teamwork:** Experience working in small teams, with the ability to take the lead on feature development and coordinate effectively with team members.
- **Project Management:** Strong skills in roadmap planning and execution, ensuring projects are completed on time and meet quality standards.
- **Communication:** Excellent verbal and written communication skills, with the ability to articulate complex technical concepts to non-technical stakeholders.

What We Offer:

- Competitive salary based on experience and skills.
- The opportunity to work with a modern technology stack and build innovative products long-term (no bench time, no project switching!). Plenty of opportunities for learning and continued career growth.
- A great values-based company culture valuing general well-being.
- Flexible working: Fully remote or hybrid in co-working space in Portugal
- Social package, which may include medical insurance.
- A minimum of 22 working days off per year (this includes annual leave + sick leave)
- Corporate events, merchandise, perks, and general well-being.
- Laptop (Mac or Microsoft) and monitors for use.
- We are a company based on the values of
 - Communication
 - Groundedness
 - Productivity
 - Commitment

Thank you for considering a career with us!
